Sports Center Membership System Risk Management Report

1. Risk Management Specifications

Risks forecasted in planning	How it was handled / mitigated
Leaving a member from lesson or project team	In order to complete the project, if a person leaves the team, someone who knows the job will take his/her place.
Risk of project members having health problems	Reshare and plan your workload with healthy members.
Target hours may not be considered for some tasks.	Must be planned in mind and shared with team.
Members cannot use the programs and frameworks used to make the project.	Meetings are held to learn how everyone will use the program and framework to reduce this risk
Computer of one of the project members may break at an important time.	Works must be backed up and have a backup computer.
Internet connection lost while using the application.	Our application is web-based, internet interruption is a critical situation.
Project and documents due date not expected date or missing deadline.	The project and documents is completed as soon as possible before the final day.
Software availability / Operating system dependency problems	We can avoid problems that can occur using C#
Database compatibility in different operating systems	Use MySQL. MySQL is available on most systems.

Risks not forecasted in planning, but observed	How it was handled / mitigated
Due to the other obligations of project members, our meetings have been postponed	Our meetings were held with Skype
