

Sports Center Membership System	
System-Wide Requirements Specification - Appendix A	Date: 23/03/2018

## System-Wide Requirements Specification - Appendix A - Tabular Description of Use Cases

Use Case Number	1
Use Case Code	SCMS-UC-001
Use Case Name	Login
Actor(s)	Member, Employee
Pre-condition	Actor is not logged in.
Post-condition	Actor is logged in.
Main path	<ol style="list-style-type: none"> <li>1. User enters his or her username and password.</li> <li>2. User presses on the “Login” button.</li> <li>3. System sends login info to DBMS and checks , if valid then show main page of application according to the user type..</li> <li>4. User will be able to use the operations of the main window.</li> </ol>
Alternative path	<ol style="list-style-type: none"> <li>1. If the username or password are invalid, the system will show a message informing on login window.</li> <li>2. User will be able to enter the login info again.</li> </ol>

Use Case Number	2
Use Case Code	SCMS-UC-002
Use Case Name	Logout
Actor(s)	Member, Employee
Pre-condition	Actor is logged in.
Post-condition	Actor is logged out.

Sports Center Membership System	
System-Wide Requirements Specification - Appendix A	Date: 23/03/2018

Main path	<ol style="list-style-type: none"> <li>1. Actor clicks the logout button to send a request to end his/her session.</li> <li>2. The system ends user's session.</li> <li>3. The system shows "Login" screen.</li> </ol>
Alternative path	None .

Use Case Number	3
Use Case Code	SCMS-UC-003
Use Case Name	Register
Actor(s)	Non-member
Pre-condition	No prior membership.
Post-condition	Non-member is a member anymore.
Main path	<ol style="list-style-type: none"> <li>1. Actor clicks to "Register" button in main page.</li> <li>2.The System prompts user for registration information like username, password, contact info etc.</li> <li>3.The user enters in his/her information.</li> <li>4.System verifies information and creates account.</li> </ol>
Alternative path	<ol style="list-style-type: none"> <li>1. Cancel registration. <ol style="list-style-type: none"> <li>a. The user selects the cancel option.</li> <li>b. The system returns the user to the home page without the user being logged in and any information entered has been erased.</li> </ol> </li> <li>2. Invalid Information Entered <ol style="list-style-type: none"> <li>a. User clicks submit after entering information system asked for.</li> <li>b. System displays information with appropriate message to correct invalid information.</li> <li>c.User re-enters information</li> </ol> </li> </ol>

Sports Center Membership System	
System-Wide Requirements Specification - Appendix A	Date: 23/03/2018

Use Case Number	4
Use Case Code	SCMS-UC-004
Use Case Name	List Physical Properties
Actor(s)	Member
Pre-condition	Actor is logged in and signed up a course.
Post-condition	System shows physical properties of actor.
Main path	<ol style="list-style-type: none"> <li>1. Customer clicks to "List physical properties" button in the customers main page.</li> <li>2. The system shows list of physical properties of the customer.</li> </ol>
Alternative path	<ol style="list-style-type: none"> <li>1. Customer hasn't gone to course yet and trainer couldn't record of his/her physical properties. <ol style="list-style-type: none"> <li>a. System gives "Record couldn't be found" message to the customer.</li> </ol> </li> </ol>

Use Case Number	5
Use Case Code	SCMS-UC-005
Use Case Name	Sign Course
Actor(s)	Member
Pre-condition	Actor is logged in and make payment for the course.
Post-condition	Actor is signed to the course.

Sports Center Membership System	
System-Wide Requirements Specification - Appendix A	Date: 23/03/2018

Main path	<ol style="list-style-type: none"> <li>1. Actor clicks to “Courses” button.</li> <li>2. All courses are shown.</li> <li>3. Actor choose a course he/she desires.</li> <li>4. Actor make payment before course started.</li> <li>5. Actor sign course when he make payment.</li> </ol>
Alternative path	<ol style="list-style-type: none"> <li>1. Actor tries to sign courses that in the same time. <ol style="list-style-type: none"> <li>a.The system will show message to inform actor.</li> <li>b.He/she has to take one of the courses.</li> </ol> </li> <li>2. Actor tries to sign course which is full . <ol style="list-style-type: none"> <li>a.The system will show a message to inform actor.</li> <li>b.System doesn’t let the actor to sign.</li> </ol> </li> </ol>

Use Case Number	6
Use Case Code	SCMS-UC-006
Use Case Name	Pay fine
Actor(s)	Member
Pre-condition	Member is logged in and currently in Main Customer Window.
Post-condition	Actor pays a fine belongs to him/her.
Main path	<ol style="list-style-type: none"> <li>1. Actor clicks to “View My Fines” button.</li> <li>2. The system queries the fine information of user.</li> <li>3. The system shows fines that belong to actor in a table of “View My Fines” window.</li> <li>4. Actor clicks to any of the records in the table.</li> <li>5. Actor clicks to “Pay Fine” button.</li> <li>6. The system connects to external payment system.</li> <li>7. The system shows payment window.</li> <li>8. Actor enters information to pay .</li> <li>9. The system checks information and accept payment.</li> <li>10. The system removes fine from actor.</li> </ol>
Alternative path	<ol style="list-style-type: none"> <li>1. If there are no fines to pay then system disables “Pay Fine” button.</li> <li>2. If actor enters a wrong payment information, the system will not accept it and program waits for correct payment information from user.</li> </ol>

Sports Center Membership System	
System-Wide Requirements Specification - Appendix A	Date: 23/03/2018

Use Case Number	7
Use Case Code	SCMS-UC-007
Use Case Name	History
Actor(s)	Member
Pre-condition	Actor is logged in and currently in Payment Window.
Post-condition	Payment history is shown.
Main path	<ol style="list-style-type: none"> <li>1. Actor clicks to “Payment” button and payment window is shown..</li> <li>2. Actor clicks to “History” button and payment history is shown.</li> </ol>
Alternative path	<ol style="list-style-type: none"> <li>1. No previous payment was found. Then the system will show message to inform actor.</li> </ol>

Use Case Number	8
Use Case Code	SCMS-UC-008
Use Case Name	Enter attendance list.
Actor(s)	Trainer
Pre-condition	Actor is logged in and in Trainer Window currently.
Post-condition	Actor enters attendance list.
Main path	<ol style="list-style-type: none"> <li>1. Trainer presses on the “Attendance” button.</li> <li>2. System shows the class list.</li> <li>3. Trainer enter the attendance list for his/her own course.</li> </ol>
Alternative path	None

Sports Center Membership System	
System-Wide Requirements Specification - Appendix A	Date: 23/03/2018

Use Case Number	9
Use Case Code	SCMS-UC-009
Use Case Name	Add/Update physical properties of members.
Actor(s)	Trainer
Pre-condition	Actor is logged in and in Trainer Window currently.
Post-condition	Physical properties of members are added .
Main path	<ol style="list-style-type: none"> <li>1. Actor presses on the “Member ” button.</li> <li>2. The system shows all members in trainer’s course .</li> <li>3. Trainer click on one of the members to add/update physical properties.</li> <li>4. Fills the table with needed properties</li> </ol>
Alternative path	None

Use Case Number	10
Use Case Code	SCMS-UC-010
Use Case Name	Define Branch
Actor(s)	System Manager

Sports Center Membership System	
System-Wide Requirements Specification - Appendix A	Date: 23/03/2018

Pre-condition	Actor is logged in and in Main System Manager Window currently.
Post-condition	A new branch defined.
Main path	<ol style="list-style-type: none"> <li>3. Actor presses on the “Define Branch” button.</li> <li>4. The system shows the Define Branch Window of the application.</li> <li>5. Actor fills all of the fields.</li> <li>6. Actor clicks to “Define Branch” button.</li> <li>7. The system queries given fields.</li> <li>8. The system creates a new branch.</li> <li>9. The system shows operation successful message.</li> <li>10. The system shows the list of branches.</li> </ol>
Alternative path	<ol style="list-style-type: none"> <li>3. Form of fields <ol style="list-style-type: none"> <li>a. If the entered fields are invalid form, the system will show a message to inform on Define Branch Window.</li> <li>b. Actor will be able to enter valid form for fields.</li> </ol> </li> <li>4. Branch is already exists in database <ol style="list-style-type: none"> <li>a. If the entered branch informations are already in the database, branch will not be defined again or overwritten.</li> <li>b. Actor will be able to enter valid fields.</li> </ol> </li> </ol>

Use Case Number	11
Use Case Code	SCMS-UC-011
Use Case Name	Define Course
Actor(s)	System Manager
Pre-condition	Actor is logged in and in Main System Manager Window currently.
Post-condition	A new course defined.
Main path	<ol style="list-style-type: none"> <li>1. Actor presses on the “Define Course” button.</li> <li>2. The system shows the Define Course Window of the application.</li> <li>3. Actor fills all of the fields.</li> <li>4. Actor clicks to “Define Course” button.</li> <li>5. The system queries given fields.</li> <li>6. The system creates a new course.</li> <li>7. The system shows operation successful message.</li> <li>8. The system shows list of the defined courses.</li> </ol>

Sports Center Membership System	
System-Wide Requirements Specification - Appendix A	Date: 23/03/2018

Alternative path	<ol style="list-style-type: none"> <li>1. Form of fields <ol style="list-style-type: none"> <li>a. If the entered fields are invalid form, the system will show a message to inform on Define Course Window.</li> <li>b. Actor will be able to enter valid form for fields.</li> </ol> </li> <li>2. Course is already exists in database <ol style="list-style-type: none"> <li>a. If the entered course informations are already in database, course will not be defined again or overwritten. It needs at least one different feature from the others.</li> <li>b. Actor will be able to enter valid fields.</li> </ol> </li> </ol>
------------------	---

Use Case Number	12
Use Case Code	SCMS-UC-012
Use Case Name	Define Payment
Actor(s)	System Manager
Pre-condition	Actor is logged in and in Main System Manager Window currently.
Post-condition	A new payment method defined.
Main path	<ol style="list-style-type: none"> <li>1. Actor presses on the “Define Payment” button.</li> <li>2. The system shows the Define Payment Window of the application.</li> <li>3. Actor fills all of the fields.</li> <li>4. Actor clicks to “Define Payment” button.</li> <li>5. The system queries given fields.</li> <li>6. The system creates a new payment method.</li> <li>7. The system shows operation successful message.</li> <li>8. The system shows list of the defined payment methods.</li> </ol>
Alternative path	<p>Form of fields</p> <ol style="list-style-type: none"> <li>a. If the entered fields are in an invalid form, the system will show a message to inform on Define Payment Window.</li> <li>b. Actor will be able to enter valid form for fields.</li> </ol>

Sports Center Membership System	
System-Wide Requirements Specification - Appendix A	Date: 23/03/2018

Use Case Number	13
Use Case Code	SCMS-UC-013
Use Case Name	Create Employee
Actor(s)	System Manager
Pre-condition	Actor is logged in and in Main System Manager Window currently.
Post-condition	A new branch manager appointed.
Main path	<ol style="list-style-type: none"> <li>3. Actor presses on the “Employee Operations” button.</li> <li>2. The system shows the Employee Operations Window of the application with “Create” and “Get” button by default.</li> <li>3. Actor fills every field.</li> <li>4. Actor clicks to “Create Employee” button.</li> <li>5. The system queries given fields.</li> <li>6. The system creates a new branch manager.</li> <li>7. The system shows operation successful message.</li> </ol>
Alternative path	<ol style="list-style-type: none"> <li>1. Form of fields <ol style="list-style-type: none"> <li>b. If actor enters fields in an invalid form, the system will show a message to inform on Employee Operations Window.</li> <li>c. Actor will be able to enter valid forms for fields.</li> </ol> </li> <li>2. Person already exists in database <ol style="list-style-type: none"> <li>a. If the entered person is already in the database, branch manager will not be created again or overwritten. A branch manager can work for only one branch.</li> <li>b. Actor will be able to enter valid fields.</li> </ol> </li> </ol>

Use Case Number	14
Use Case Code	SCMS-UC-014
Use Case Name	Read Employee
Actor(s)	System Manager
Pre-condition	Actor is logged in and in Main System Manager Window currently.
Post-condition	The list of all branch managers showed.

Sports Center Membership System	
System-Wide Requirements Specification - Appendix A	Date: 23/03/2018

Main path	<ol style="list-style-type: none"> <li>6. Actor presses on the “Employee Operations” button.</li> <li>7. The system shows the Employee Operations Window of the application.</li> <li>8. Actor presses on the “Read” tab button.</li> <li>9. The system shows the list of branch managers with their information.</li> </ol>
Alternative path	None

Use Case Number	15
Use Case Code	SCMS-UC-015
Use Case Name	Update Employee
Actor(s)	System Manager
Pre-condition	Actor is logged in and in Main System Manager Window currently.
Post-condition	Informations of specified branch manager are updated.
Main path	<ol style="list-style-type: none"> <li>1. Actor presses on the “Employee Operations” button.</li> <li>2. The system shows the Employee Operations Window of the application.</li> <li>3. Actor presses on the “Get User” button.</li> <li>4. Actor presses on the “Update” button.</li> <li>5. The system allows actor to change fields.</li> <li>6. Actor changes fields he/she wants.</li> <li>7. Actor presses on the “Update Employee” button.</li> <li>8. The system updates user.</li> <li>9. The system shows operation successful message.</li> </ol>
Alternative path	<ol style="list-style-type: none"> <li>1. Form of fields <ol style="list-style-type: none"> <li>a. If the entered fields are invalid, the system will show a message to inform on Employee Operations Window.</li> <li>b. Actor will be able to enter valid forms for fields.</li> </ol> </li> </ol>

Sports Center Membership System	
System-Wide Requirements Specification - Appendix A	Date: 23/03/2018

Use Case Number	16
Use Case Code	SCMS-UC-016
Use Case Name	Delete Employee
Actor(s)	System Manager
Pre-condition	Actor is logged in and in Main System Manager Window currently.
Post-condition	The specified branch manager deleted from the database.
Main path	<ol style="list-style-type: none"> <li>4. Actor presses on the “Employee Operations” button.</li> <li>5. The system shows the Employee Operations Window of the application.</li> <li>6. Actor presses on the “Get User” button.</li> <li>7. Actor presses on the “Delete Employee” button.</li> <li>8. System gives a warning message.</li> <li>9. The system deletes the user.</li> <li>10. The system shows operation successful message.</li> </ol>
Alternative path	<ol style="list-style-type: none"> <li>1. Form of fields <ol style="list-style-type: none"> <li>a. If the entered fields are invalid, the system will show a message to inform on Employee Operations Window.</li> <li>b. Actor will be able to enter valid forms for fields.</li> </ol> </li> </ol>

Use Case Number	17
Use Case Code	SCMS-UC-017
Use Case Name	Create Customer
Actor(s)	Branch Manager
Pre-condition	Actor is logged in and currently in Main Branch Manager Window.
Post-condition	A new customer registered to the system.
Main path	<ol style="list-style-type: none"> <li>11. Actor presses on “Customer Operations” button.</li> <li>12. The system shows the Customer Operations Window of the application with “Create” and “Get” button by default.</li> <li>13. Actor fills every field.</li> <li>14. Actor clicks on “Create Customer” button.</li> <li>15. The system queries given fields.</li> <li>16. The system creates a new customer.</li> <li>17. The system shows operation successful message.</li> </ol>
Alternative path	<ol style="list-style-type: none"> <li>1. Form of fields <ol style="list-style-type: none"> <li>a. If actor enters fields in an invalid form, the system will show a message to inform on Customer Operations Window.</li> <li>b. Actor will be able to enter valid forms for fields.</li> </ol> </li> </ol>

Sports Center Membership System	
System-Wide Requirements Specification - Appendix A	Date: 23/03/2018

	<ol style="list-style-type: none"> <li>2. Person already exists in database <ol style="list-style-type: none"> <li>a. If the entered person is already in the database, customer will not be created or overwritten.</li> <li>b. Actor will be able to enter valid fields.</li> </ol> </li> </ol>
--	---

Use Case Number	18
Use Case Code	SCMS-UC-018
Use Case Name	Read Customer
Actor(s)	Branch Manager
Pre-condition	Actor is logged in and in Main Branch Manager Window currently.
Post-condition	The list of all customers in specified branch showed.
Main path	<ol style="list-style-type: none"> <li>1. Actor presses on the “Customer Operations” button.</li> <li>2. The system shows the Customer Operations Window of the application.</li> <li>3. Actor presses on the “Get Customer” tab button.</li> <li>4. The system shows the list of customers with their information.</li> </ol>
Alternative path	None

Use Case Number	19
Use Case Code	SCMS-UC-019
Use Case Name	Update Customer
Actor(s)	Branch Manager
Pre-condition	Actor is logged in and in Main Branch Manager Window currently.
Post-condition	Informations of specified customer are updated.
Main path	<ol style="list-style-type: none"> <li>1. Actor presses on the “Customer Operations” button.</li> <li>2. The system shows the Customer Operations Window of the application.</li> <li>3. Actor presses on the “Get Customer” button.</li> <li>4. Actor presses on the “Update” tab button.</li> <li>5. The system allows actor to change fields.</li> <li>6. Actor changes fields he/she wants.</li> <li>7. Actor presses on the “Update Customer” button.</li> <li>8. The system updates user.</li> <li>9. The system shows operation successful message.</li> </ol>

Sports Center Membership System	
System-Wide Requirements Specification - Appendix A	Date: 23/03/2018

Alternative path	<ol style="list-style-type: none"> <li>1. Form of fields <ol style="list-style-type: none"> <li>a. If the entered fields are invalid, the system will show a message to inform on Customer Operations Window.</li> <li>b. Actor will be able to enter valid forms for fields.</li> </ol> </li> </ol>
------------------	--

Use Case Number	20
Use Case Code	SCMS-UC-020
Use Case Name	Delete Customer
Actor(s)	Branch Manager
Pre-condition	Actor is logged in and in Main Branch Manager Window currently.
Post-condition	The specified customer deleted from the database.
Main path	<ol style="list-style-type: none"> <li>1. Actor presses on the “Customer Operations” button.</li> <li>2. The system shows the Customer Operations Window of the application.</li> <li>3. Actor presses on the “Get User” button.</li> <li>4. Actor presses on the “Delete Customer” button.</li> <li>5. System gives a warning message.</li> <li>6. The system deletes the user.</li> <li>7. The system shows operation successful message.</li> </ol>
